I understand some of the concerns and suspect that they can be resolved if these are honestly the issues. Disruption is always painful at first but ultimately the market works if allowed. I expect taxpayers will waste a lot of time and money fighting Uber when the real battle should be just to assure reasonable insurance and protection but not just trying to maintain status quo. We have used Uber several times, and they have all been professional and I felt safer with Uber than any other cab service that I've ever used.

Subject: Uber

To Whom it may Concern:

Uber is a safe, reliable and cost effective method of transportation. My husband and I rely on them heavily when we travel and we are often in SC due to family commitments. We rarely have an automobile and feel a real sense of loss at not having Uber as an available mode of transportation. Please reconsider your decision and allow Uber to operate in SC.

While on a recent stay in Charleston I used Uber to return to my hotel during a rainstorm. Had Uber not been available, who knows how long I would have been waiting for a traditional taxi. Uber is safe, reliable, and cost effective.

Best wishes,

Joseph Roy
